

Digital Mental Health Resources for Adolescents (12-17yrs)

Digital mental health resources are online programs, tools, apps, phone lines and video services that deliver mental health support. They can be used alone or with support from your doctor or therapist.

These resources are free or low cost, and easy to access at a time that suits you, with your phone or the internet. Some services even allow you to remain anonymous.

Your doctor, psychologist, or guidance counsellor can help you work out if you might need more support with your mental health.

Head to Health

HEAD TO HEALTH Connecting all Australians to mental health support.
